Wheaton Park District
Athletic Field Use Guidelines

We are all committed to provide high quality, safe playing surfaces for our multi-use athletic facilities, but we need the help and consideration of all user groups in protecting the turf from excessive damage due to game and practice activities. The turf grass is the safety surface for the athletic fields.

During the spring before soil temperatures are warm the roots of grass are shallow and the blades are still dormant, any twisting or turning on the turf can cause damage. Therefore, the turf can be easily damaged with heavy play and little moisture due to the shallowness of roots.

The following athletic areas open for the season for practice, weather permitting, on:

1. Baseball/Softball: April 1st
2. All Athletic Turf Grass Fields: April 10th

All Athletic Turf Grass fields will open for the season for games the Third Weekend in April.

If any of the following conditions occur, scheduled games and practices must be canceled or postponed.

1. Standing water on the field of play.
2. Soil Saturation:
 - Walking on turf causes water to surface
 - Walking on turf on heels causes indentations
 - One inch or more of rain 48 hours prior to scheduled game or practices accompanied by steady rain on game or practice day.
 - Steady downpour of rain on game or practice day which could cause damage to turf or injury to participants.
3. Extreme drought conditions where 50% of the playing surface has turned dormant.
4. Audible thunder or visible lightning.
5. Visibility (darkness)

All coaches, referees, and umpires are responsible for insuring the safety of field playing conditions at all times during the scheduled play. *Safety implies protection of the resource, as well as the participants.*

No tournament should be scheduled before May 15.
